Insituto Superior de Engenharia do Porto

2019 - 2020 Degree in Informatics Engineering

Escola Superior de Tecnologia e Gestão

Language Skills

Native Language: Portuguese

Other language(s): English

- Listening: B2
- Reading: B2
- Spoken production: B2
- Spoken interaction: B2
- Writing: B2

Projects

03/2022 - 12/2022 **Development of the project FLOYD at CISTER**

FLOYD is a project about 5G/SDN Intelligent Systems For Low latency V2X communications in cross-Domain mobility applications. During this year, I had the opportunity to join CISTER - Centro de Investigação em Sistemas Computacionais Embebidos e Tempo-Real, which is a research center associated with ISEP and help his development.

Volunteering

2016 - 2024 **Member and Douro Regional Coordinator of Jovens Sem Fronteiras**

I belonged for over 7 years to a missionary movement (national level) called Jovens Sem Fronteiras in which, in addition to be a part of the group in my city, I was also one of the coordinators of all the groups in the Douro region. This group carries out a lot of volunteer activities all over Portugal, and gave me the opportunity to help others.

Hobbies and interests

Sports

For as long as I can remember, I have always been a person who was very interested in participating in various activities. I played several sports, not only group sports, such as federated football, which helped me to understand very well what the word "team" means and its spirit, but also individual sports, such as badminton, which forced me to be very committed and focused in my abilities and in their development.

Photography

Photography and Design have always been two subjects that I was very interested in. Since I was very young I have always been happy to walk around and take pictures of everything, so that when I got home I could edit them. Today, I have an Instagram account exclusively dedicated to sharing those images.
